Target oriented professional with more than 3 years of experience in building stable, production grade web applications using Drupal, Symfony, Laravel, Php, WordPress and eCommerce platforms (Shopify, Shopware, Woo-commerce, Zapier, Prestashop, JTL, magento2) technologies. Specialized in delivering reusable, configurable, reliable, and scalable components for Web based platforms. Committed to implement best security practices to shield against lethal vulnerabilities and attacks. Dedicated to utilize a wide variety of ways to boost efficiency and productivity.

WORK EXPERIENCE

Sr. Software Engineer COEUS Solutions GmbH

07/2019 - Present

Achievements/Tasks/Tools

- Utilized Drupal & WordPress - web based content management system for number of projects.
- Utilized Symfony & Laravel - web frameworks of php to provide and maintain web/mobile solutions.
- Worked on OAuth2.0 implementation and developed REST APIs using PHP in frameworks Symfony and Laravel.
- Used AWS for SQS, S3, RDS, cloudwatch, Redis and used Jenkins for deployment in number of products/projects.
- Explored Docker and Vagrant as VM.
- Explored Kibana, Grafana and bugsnag for logging and statistical analysis.
- Worked on number of eCommerce platforms for module/plugin development and theme customization like Wordpress, Shopify, Shopware, Woo-commerce, Zapier, PrestaShop, JTL, magento2
- Implemented messaging system between distributed applications using AWS SQS and systemd daemons.
- Manage team as a team leader and train internees as well as subordinates.
- Direct communication with clients in stand ups as well as boot camps for demos and presentation of application's flow.

Teacher's Assistant

PUCIT - Punjab University College of IT

05/2007 - 10/2010

Achievements/Tasks

- Observed students performance and report to professors.
- Took labs, assignments and evaluate grades.

ACADEMIC QUALIFICATIONS

Bachelor of Computer Science (BSCS)

PUCIT - Punjab University College of IT

2015 - 2019

89% 3.41/4

Faculty of Sciences (FSc)

KIPS College

2012 - 2014

84% 927/1100

Matric

Qazi Grammer School

2010 - 2012

87% 911/1050

SKILLS

Backend: Symfony, Laravel, Drupal, PHP, MySQL, Linux, Apache

CMS platforms: Drupal 6, Drupal 7, Drupal 8 & 9, wordpress

Frontend: Bootstrap | jQuery | HTML | CSS | JavaScript

Ecommerce platforms: Wordpress, Shopify, Shopware, Woocommerce, Zapier, PrestaShop, JTL, magento2

Virtualization software: Docker, Vagrant

Logging tools: Kibana, Grafana, Bugsnap

AWS: ECS, EC2, S3, SQS, RDS, CloudWatch, Redis

WORK PROJECTS

Coeus: 4Art - Symfony 3.4

- **Tech Stack:** Symfony 3.4, PHP 5.7, MySQL 5.7, Javascript/Jquery, bootstrap, AWS Services EC2 / SQS / S3 / lambda / RDS, Redis, Docker, grafana, kibana, bugsnap, mailchimp, Jenkins for deployment

eKomi: IR | Taxpenses | Plugins-dashboard - Symfony 4 / 5

- **Tech Stack:** Symfony 3.4, PHP 7.4, MySQL 7.4, Shopify, Shopware, Prestashop, woocommerce and zapier app creations, AWS EC2 / SQS / S3 / lambda / RDS, Redis, Docker, grafana, kibana, bugsnap, mailjet, Jenkins.

eKomi: Workflows | MRR - Symfony 5 / 3.4

- **Tech Stack:** Symfony 4, PHP 5.7, MySQL 5.7, Javascript/Jquery, bootstrap, AWS Services EC2 / S3 / lambda / RDS, RabbitMQ, Redis, Vagrant, grafana, kibana, bugsnap, mailjet, Jenkins for deployment.

eKomi: Diverses - Drupal 7

- **Tech Stack:** Drupal, php 8, MySQL 8, Dockerized, apis, grafana, bugsnap, kibana, modules, themes, Jenkins for deployment

eKomi: BankingCheck - Drupal 6

- **Tech Stack:** Drupal, php 7.4, MySQL 8, S3, SQS, cloudwatch, cron jobs, redis, grafana, kibana, mailjet, Jenkins

eKomi: Bravo - Drupal 9

- **Tech Stack:** Symfony 3.4, php 8, MySQL 5.7, vagrant, AWS services, API Platform, cron jobs, SQS, swift mailer, cloudwatch, redis and Jenkins

Techlio: Consulting Reservation (CRA / CRC) - Laravel 8 / 9

- **Tech Stack:** Laravel, php 7.4, API Platform, MySQL 5.7, vagrant, S3, cron jobs, SQS, swift mailer, cloudwatch, redis and Jenkins

Techlio: Launch Boom - Laravel 7

- **Tech Stack:** Laravel, php 7.4, API Platform, MySQL 5.7, Dockerized, S3, cron jobs, SQS, swift mailer, cloudwatch, redis and Jenkins

Coeus: Workhub - Laravel 8

- **Tech Stack:** Laravel, php 7.4, API Platform, MySQL 5.7, Dockerized, S3, cron jobs, SQS, swift mailer, cloudwatch, redis and Jenkins
